

# LABGLASS PTY LTD

Labglass has been one of Australia's leading scientific glassware manufacturers for over 42 years and is situated in Brisbane Queensland. The company manufactures a wide range of Scientific and Industrial glassware and Water Stills which are distributed throughout the world.

Brisbane which has a subtropical climate with good weather all year long is close to the famous Gold Coast beaches tourist area and well as many other world famous locations. These and Queensland's easy going life style make Brisbane an ideal area to relocate to for a new start in life.

Labglass has a loyal dedicated staff, a number whom after many decades with the firm are reaching retirement. As a result we require a scientific glassblower with a minimum of 5 years experience in bench and lathe work to commence work as soon as possible. Experience in quartz work would also be preferred but is not essential. The applicant must be able to work independently and from technical drawings. A good working use of the English language is essential for Visa approval.

The position is full time. Labglass will be providing Immigration 457 Visa nomination to the successful applicant. The position is for 4 years based on Australian Long Stay 457 Visa legislation. It is hoped however that the successful applicant may consider applying for permanent resident status after a qualifying period and continue working at Labglass.

Applicants should contact Graham Wolfe with your CV for further details.

Please note that for applicants to be eligible for a 457 Visa they must be able to prove 5 years continuous study of English at a Secondary or high level of education or pass all exams in the international IELTS exam. [www.ielts.org](http://www.ielts.org)
