

## Second Hand Glassblowing Equipment Required

Would be interested in any glassblowing tools to help set up a fledgling glassblowing workshop. Looking for the didymium safety glasses, a set of donkey wheels/rollers, grabbing/holding tools of various diameters and a pair of mashers.

Any advice or help with setting up a workshop would also be gratefully received.

Please contact Lucy Wade at [lucy@lucywade.com](mailto:lucy@lucywade.com)

Thanks in advance.
